**BrickHost accounts are hosted using Dual Intel Xeon Servers**

**Server Specifications:**

Dual Xeon 2.4GHz

1.0GB PC-2100 DDR ECC Registered DDRAM

Dual Western Digital 80GB EIDE 7200RPM 8MB cache Hard Drive

**Designed for demanding workstation applications**

The Intel® Xeon™ processor is ideal for workload intensive applications that require floating point performance and intense graphics use for design.

**Scalability**

Outstanding dual-processor performance and a 400 MHz system bus.

**Flexibility**

Designed specifically for multi-tasking environments and provides outstanding performance for multi-threaded applications.

**Performance**

Based on the Intel® NetBurst™ microarchitecture for industry-leading performance.

The new Intel Xeon processor is ideal for dual processing workstations and brings a broad range of innovations that make it the new performance standard for demanding workstation applications.
